

## Ag Tech/ Parts Management Tuition Assistance Program

21<sup>st</sup> Century Equipment, LLC. is offering tuition assistance to qualified individuals to attend the John Deere Company partnership college programs including Southeast Community College in Milford, NE and Garden City Community College in Garden City, KS, for vocational instruction relating to agricultural service technician training or parts department management training.

21<sup>st</sup> Century Equipment, LLC. will advance all or a portion of the quarterly, full-time tuition, books, fees, together with customary cost for room and board and curriculum related tools, for the stated academic year.

This advance is subject to the terms and conditions stated in the 21<sup>st</sup> Century Equipment, LLC. Tuition Assistance Contract and also includes the following requirements:

- 1.) Approval by 21<sup>st</sup> Century Equipment, LLC. Management team.
- 2.) Acceptance to the above mentioned community colleges.
- 3.) Student must maintain a cumulative GPA of 3.0 or higher.
- 4.) Work experience will be completed at one of the 21<sup>st</sup> Century Equipment dealership locations. Student will earn a competitive wage during this time.
- 5.) 21<sup>st</sup> Century Equipment, LLC. provides required student uniforms for the college program.
- 6.) Upon successful graduation from the program, student agrees to accept an offer of employment from 21<sup>st</sup> Century Equipment, LLC. on an "at will" basis.

21<sup>st</sup> Century Equipment, LLC is a growth-oriented multi-store John Deere Dealership with the following locations:

**Colorado-** Akron, Cheyenne Wells, Flagler, and Fort Morgan

**Kansas-** Leoti

**Nebraska-** Alliance, Bridgeport, Gordon, Imperial, Ogallala, and Sidney

We value hard-working and motivated individuals who are interested in contributing to the growth of a successful equipment dealership and want to work in a strong team environment. We offer an excellent full-time employee benefits program.

With today's ever changing agricultural technology we are continuously providing employees with advanced training opportunities and focusing on the computer and diagnostic skills required to provide outstanding service to our customers expanding farm and ranch operations with enhanced features on such equipment as combines, tractors, planters, sprayers, hay equipment and precision farming John Deere Ag Management Solution (AMS) products.
